

ABET LAMINATI®

Job Title: System & Network Administrator

Company: ABET USA, Inc.

Location: Oconomowoc, WI

Compensation: Commensurate with experience

Employment: Full-time

We are seeking a highly skilled System & Network Administrator who will play a critical role in providing complete IT support across the state and other locations, resolving hardware, software, and network-related issues with minimal downtime.

Key Responsibilities:

- Provide complete IT support across the state and other locations, resolving hardware, software, and network-related issues with minimal downtime.
- Maintain and administer server infrastructure, including Windows Server with Hyper-V, VMware, and Linux, ensuring security, performance, and data integrity.
- Manage network infrastructure, including VPN site-to-site connections, for secure and reliable communication across all locations.
- Install, configure, and maintain various software applications, including SAP B1 ERP and Microsoft Dynamics 365
- CRM, optimizing them for user efficiency and business needs.
- Successfully lead the migration from a Cloud Suite ERP to SAP B1, ensuring a smooth transition and user adoption.
- Proactively monitor and address 0-day vulnerabilities, implementing security patches and best practices to maintain a secure IT environment.
- Adjust IT infrastructure to accommodate changing needs of in-office and remote personnel, ensuring continued productivity and collaboration.
- Develop and implement disaster recovery and backup plans to minimize downtime and data loss in case of emergencies.
- Document IT processes and procedures for knowledge transfer and consistent service delivery.
- Assist in Help Desk for every IT problem for all employees of the company.

Requirements

- Applicant must have a Bachelor's degree in Computer Science, Information Technology, or related field.
- Applicant must have 1 year experience in IT support including troubleshooting, website maintenance, building and deploying computers, servers, Access Points, and security features.
- Must have in-depth skills in Windows Server, Hyper-V, VMware, Linux, Microsoft Exchange Server, Azure, VPN technology, and security protocols.
- Applicant must have experience working with Python, Java, C++, SQL, Relational Database, and Data Science.
- Domestic & International travel is required 50%.

40 hours per week, M-F, 9 am – 5 pm. Must have proof of legal authority to work in the United States. To be considered, please visit ABET USA, Inc. career site website at <https://abetlaminati.com/en/careers/> to create a profile and submit a resume against Ref.#20231662
